Mobile App Wireframing

📱 App Idea

TaskMate is a mobile application designed to help students manage their tasks, assignments, and deadlines efficiently.

🧠 User Research

- Students often forget deadlines
- Need reminders for tasks
- Prefer simple and easy-to-use apps

👤 User Persona

Name: Rahul Sharma
Age: 20
Occupation: Student

Goals:

- Track assignments
- Complete tasks on time

Problems:

- Forgetting deadlines
- Using multiple apps

🔄 User Flow

Open App → Login → Dashboard → Add Task → Save → View Tasks

🧩 Design Thinking

Empathize: Students struggle to manage tasks
Define: Need a simple task management app
Ideate: Plan features like adding tasks and reminders
Prototype: Created wireframes in Figma
Test: Ensured the app is simple and easy to use
